

## Installation

To install PleaseSleep, drag the PleaseSleep icon to your Applications folder. You can then eject the PleaseSleep disk image.

## Launch PleaseSleep

To launch PleaseSleep, double-click the PleaseSleep icon to your Applications folder. Once PleaseSleep launches, it displays a "Z..." icon on the menu bar.

## Uninstall

To uninstall PleaseSleep, select "Quit" from PleaseSleep's menu if it is running, drag the PleaseSleep icon from your Applications folder to the Trash.

## Mountain Lion and Gatekeeper

PleaseSleep is compatible with Mac OS X 10.8 Mountain Lion, however you need to do one of the followings to work with Gatekeeper feature:

1. Turn off Gatekeeper by selecting "Anywhere" in "Security & Privacy" System Preferences, or
2. Right-click on PleaseSleep.app icon in your Applications folder and then choose "Open", select "Open" in the prompted dialog box to allow PleaseSleep to run on your system.

## Support

Support email: [tech.support@dragonone.com](mailto:tech.support@dragonone.com)

## Donations

PleaseSleep is free and is donation-ware, so if you use it and like it then please consider a donation. Donations help pay for bandwidth and help pay for the time spent maintaining and improving the software. Donations are entirely voluntary, and any donation amount is greatly appreciated. To make your donation now, please visit <http://www.dragonone.com/products/macosx/pleasesleep/donate.html>.

Thank you for your support!

2012 DragonOne.
