The tiki gods have left their precious booty for you to pick up if you are a skilled shot! Not only is this tiki bling worth gem points, but for every 10 gems you collect you will get one stroke off your score!

#### Tiki Gem

This is the standard tiki gem, get one gem point for each one of these beauties!

#### Loki Gem

Loki himself has left these for you to collect. Be lucky enough to collect one of these and you will be rewarded with 3 gem points!

### Gem Bonus!

- 5 gem points
- 10 gem points
- Gigantic ball - Grows your ball 10 times its original size
- Tiki curse – Beware! Makes your ball bounce uncontrollably

## TIKI MAGIC

Throughout your journey, you will discover various forms of mystical tiki magic. There are 2 main types, Tiki Magic Whirl Winds and Tiki Magic Teleports.

These magical winds of the gods will throw your ball in the right direction *usually*.

Learn to use them effectively and you will be rewarded!  
Hint: There is a sweet spot!

### Tiki Magic Teleports

These mystical gateways will teleport your ball closer to the hole! The gods require a toll to use this power. The number of gems required is listed above each teleport.
