

Thank you for flying with foxPEP!

Release 2.2.2 *Gratitude* | Composed by zgxSystems

The **Firefox Partitioned Engine Patch**, officially abbreviated as **foxPEP**, is a finely tuned all-in-one preferences patch designed exclusively for **Firefox-based browsers** that automatically applies a number of advanced under-the-hood configurations to achieve a superior Web browsing experience on vintage computer hardware in addition to modern systems.

Therefore, the following advantages should be seen once **foxPEP** has been installed:

- ✓ **Faster website loading**
- ✓ **Accelerated image rendering**
- ✓ **Smoother video playback**
- ✓ **Fluid page scrolling**
- ✓ **Optimized disk, memory, and CPU utilization**

Installation Guide

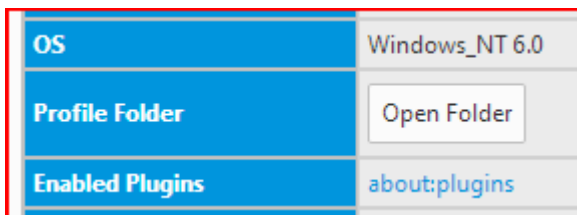

One. Open the browser.

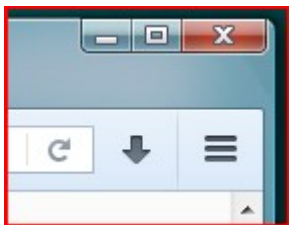

Two. Enter **about:support** into the address bar.

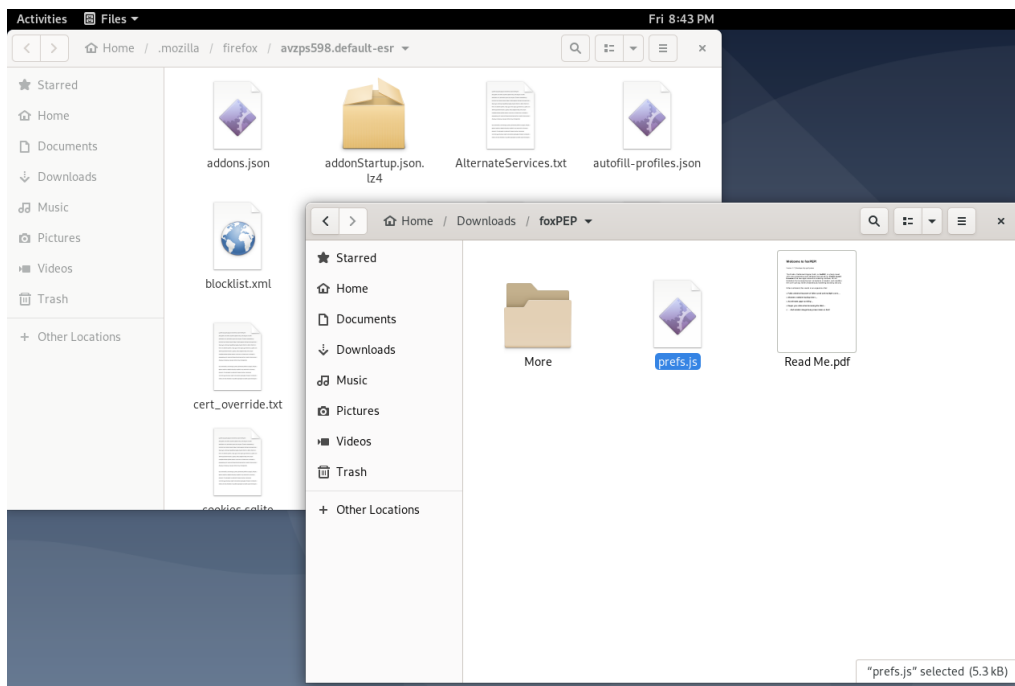

Three. Locate and click a button similar to **Open Directory** within the *Profile Directory* row.

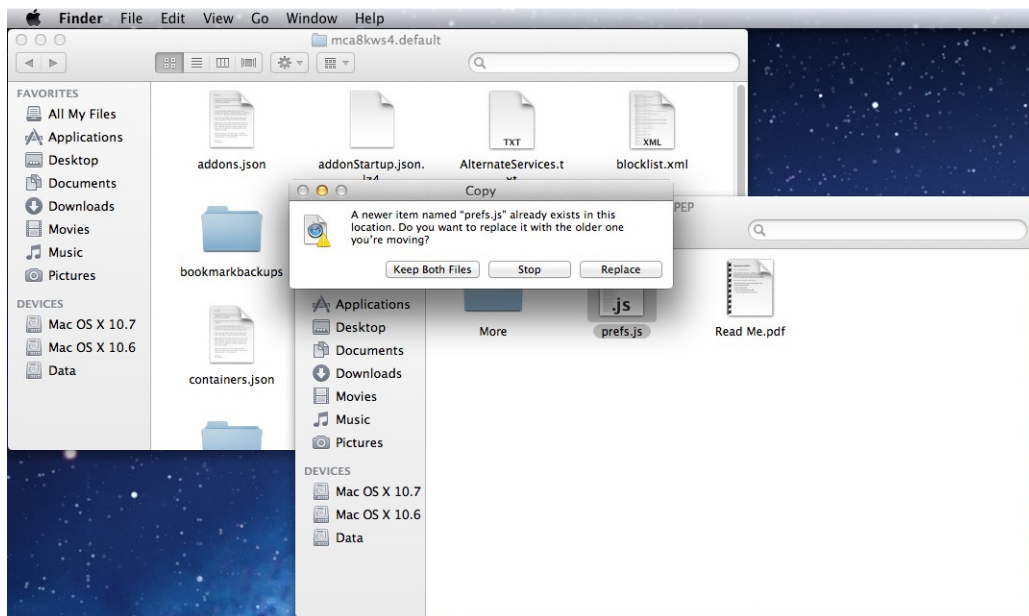

Four. Quit the browser.

Five. Drag & drop **prefs.js** out of the *foxPEP* folder and into the **Profile Directory** window.

Six. When asked if you want to replace *prefs.js* with **prefs.js**, select **Replace**.

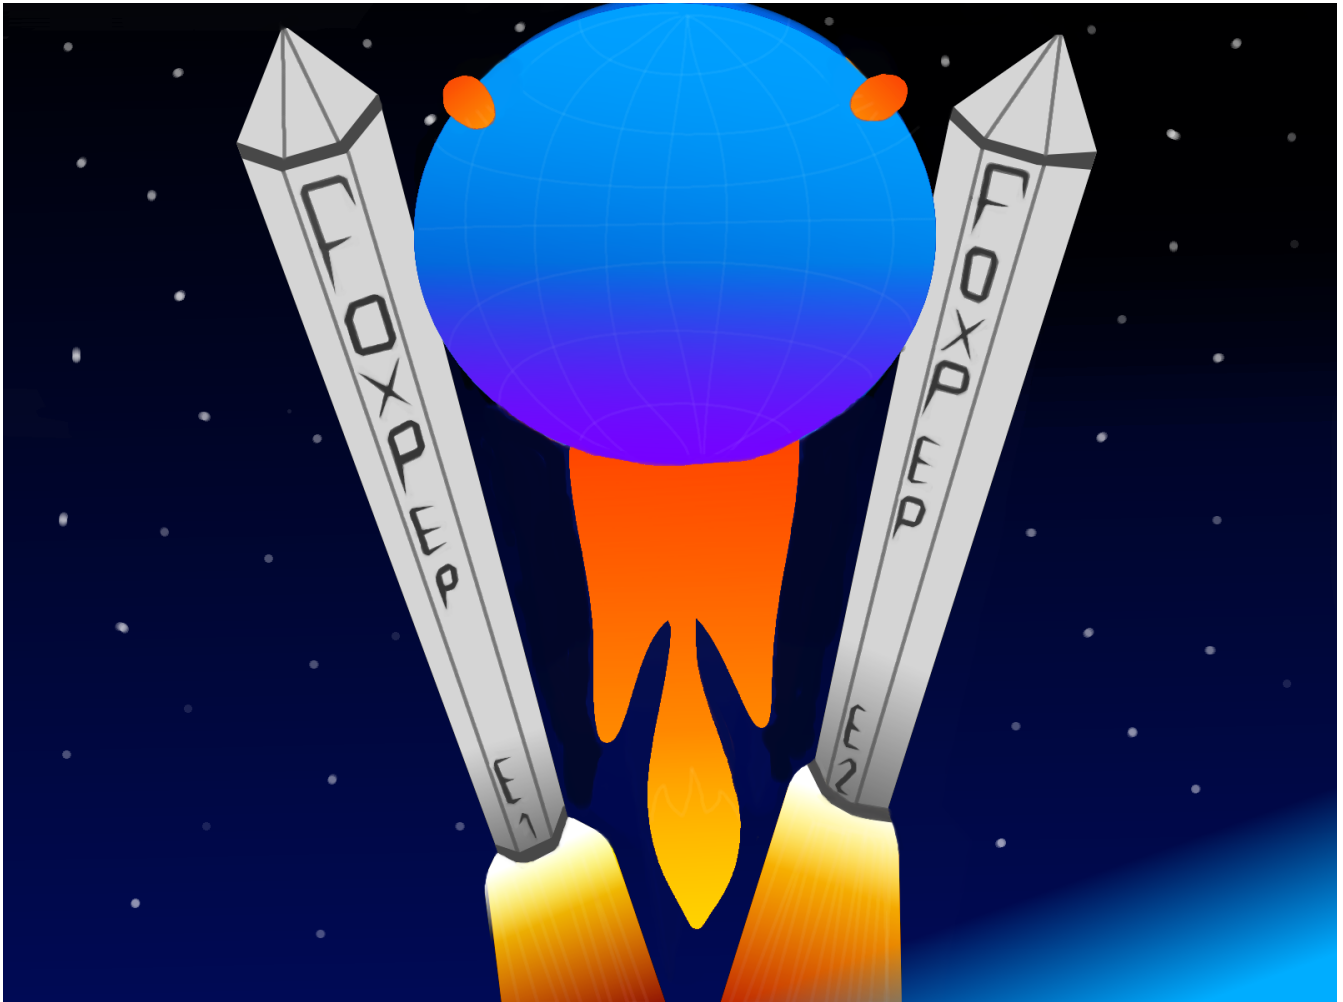

You're all done!

foxPEP is a freely available parameters patch primarily intended for old computers and their supporting communities offered in earnest to help fight the epidemic of prematurely abandoned and recycled e-waste, because we believe you should not need to buy a new computer in order to access the information superhighway in all its glory.

Don't forget to refer to *License.txt* within the **More** folder for terms and conditions of use.
