Flux 10.3

Flux is an OpenGL ScreenSaver for Mac OS X.
Flux is a creation of Terence M. Welsh. I just ported it to Mac OS X.

Installation:

You can either:

- Drag the file Flux.saver to your **Screen Savers** folder in the **Library** folder of your Home folder (you may need to create the **Screen Savers** folder).

or

- Drag the file Flux.saver to the **Screen Savers** folder in the **/Library** folder (you need to be an user with administrative privileges).

How does it work:

Open the System Preferences application.
Select the Screen Savers pane.
Select the Flux Screen Saver.

To configure it, click on Configure.

Localizations included:

• English
• French
• Italian (Thanks to Tommaso Pecorella, you can find other great Screen Effects on his web site: spazioinwind.libero.it/tpecorella/uselesssoft/software.htm)
• Swedish (Thanks to Fredrik Olsson)
• German (Thanks to Heiko Wichmann)
• Japanese (Thanks to hosince)

Legal Stuff:

Flux, Copyright © 2002‑2012 Terence M. Welsh
Mac OS X port : Stéphane Sudre

Flux is free software; you can redistribute it and/or modify it under the terms of the GNU General Public License version 2 as published by the Free Software Foundation.

See the included GNU GPL 2 file in the source archive.

The modified source code is available at the following URL:

http://s.sudre.free.fr/Software/Source/scrssc.tar.gz

Bug reports, suggestions:

For bug reports, localization or ReadMe file, please send an e-mail to

s.sudre@free.fr .

Price:

Flux is a Free software. So it's free.
